

Dweamer - Dreamweaver Theme Builder

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

If you've ever tried to edit the Dreamweaver color scheme on your own, you know what a pain it can be (and if you haven't, you're not missing much). But, Dweamer makes easy work of a task that used to take several hours. And since Dweamer allows you to save themes, you can come back and edit them at any time, or quickly switch to a different theme whenever you like (without having to start from scratch every time). As an added bonus we will soon be launching a free Dweamer theme gallery where you can share your themes with others and download themes other users have created! So, if you're tired of the default Dreamweaver colors (or never liked them in the first place), give Dweamer a try!
