

# Dynamically Changing Static Web Galleries

<b>Address</b>	{value_address}
<b>Contact Person</b>	{value_contact_person}
<b>Mobile Number</b>	{value_mobile_number}
<b>Email</b>	{value_email}

This article explains how to dynamically change static HTML Web galleries so that the Web galleries match the color, layout, and design of a Web site. It first discusses some tools that will create static HTML Web galleries, then it describes reasons these static Web galleries will need to change. Finally a detailed description of how to actually implement these dynamic changes to static Web galleries will be presented. Source code available for download.
