E-mail List Builder plugin submit your post commenter's contact details to popular autoresponder systems: GetResponse, Aweber and iContact. E-mail List Builder plugin creates profitable customer relationships for your business. It is excellent solution for successful internet marketer. It works like the following. When a visitor decides to leave comment on post/page which is configured to use the plugin, visitor's contact details are autosubmitted to autoresponder system (configured by admin). After that visitor either redirected to pre-defined page or stay on the same page where he/she left the comment. This option is configured by admin.
