Easy ASP and SQL AdBannerRotator

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

With this easy to use Rotator you can display your Advertisment in a random order each time the page refresh. After a long seach with varied results I ended up with writing my own article. Feel free to use, but keep a reference to this site in the HTML code.
