Easy Chat Page Generator

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

EZCHATPG allows your visitors to build their own chat page (aka chat room) on your site by simply filling in a few fields and selecting a color scheme. The html-based chat room created is immediately available for chatting. Each chat page is powered by a special version of Matt Hahnfeld's everychat script (modified to serve multiple users and chat rooms).
