Easy Image Catalogue (EIC)

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

EIC allows you to generate a thumbnail site with different galleries just by uploading the pictures. The display is full customizable via templates. Users can browse the galleries (hits are tracked), search on the whole site and add comments to each image. The owner can add descriptions and titles for each gallery and images. Thumbnails are generated via gd_lib, support for truecolor jpgs is implemented. Easy 5 step setup process. Data is stored as XML.
