

EasyAuthNet

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

This powerful set of PHP classes enables easy integration into any Authorizenet API gateway. It supports all of the new Authorizenet security features including AIM, SIM, md5 Hash, and Fingerprinting. Package includes built in Form objects with auto validation. Sample scripts allow you to be up and running in no time.
