

eBay Auction Store Front Script

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

My eBay Script is a set of PHP functions that displays eBay products onto your own website. This script is only for those who are or want to be apart of the Affiliate Marketing industry. Being apart of this fast growing industry will allow you to sign up as an affiliate to eBay. What this means is you advertise their products and you will get a commission from the sell. Here are some of the things you will be able to do: * Access and promote 1000's of eBay Items * Easily import eBay categories into your site using our feed import wizard * Use our professional website templates or easily create your own, HTML skills may be required. * Build as many eBay stores as you would like using just one MeS license. If you were to just make \$2 in commissions a day, that would bring you \$600 a month just from one site. Rinse and Repeat and you could be on your way to some really nice income.
