ED for Windows is a smart language sensitive programmer's editor, with a breadth and depth of powerful editing capabilities you're unlikely to find elsewhere. ED goes beyond editing giving you instant access to every function and class with its Source Database Engine, unmatched Visual File Compare, integrated Compiler support, fast multi-threaded Regular Expression Search Engine, fully configurable UI, and quick access to files using Projects. ED includes support for 34 programming languages out of the box including PHP, Perl, Java, C/C++, HTML and many more.
