Ektron CMS200 is a powerful browser-based Web content management solution (CMS) that supports the online initiatives of small, medium and enterprise-size organizations and departments. Runs on ASP, ASP.NET, PHP, and ColdFusion platforms in a Microsoft server environment. Key features: rapid integration; check-in/out, workflow, approval chains, versioning, audit trails, see who made changes, Dreamweaver extensions, content redlining, metadata support, content syndication; advanced search; schedule content to go live, link checking, "content not searchable" function, Mac OS X support, Active Directory support, more. Our embedded eWebEditPro HTML editor allows anyone to create Web-ready content as easily as they can type. CMS200 integrates quickly, without the expensive integration costs. CMS200 is easy for non-technical users to adopt. By putting the power to publish Web content into the hands of subject matter experts, content remains up-to-date.
