ElegantJ Charts is a Java Beans Charts & Gauges library for powerful visualization of the data. It provides ultimate interoperability through XML integration, and with easy-to-use intuitive Chart Desinger IDE, you can design customized, dynamic, interactive 2D and 3D charts in less than 5 minutes! ElegantJ Charts can import data from a wide variety of data sources - text, SQL, or XML through HTTP or FTP. Enjoy the liberty of working in different Java architecture - Java Enterprise Edition, JSP, Servlet, and Java Standard Edition. It works with any latest IDE - Borland JBuilder, Sun Java Studio Creator, NetBeans or Eclipse Editor.
