

Email Pranker

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Uses CDONTS and ASP to set up a application on your web site which allows visitors to sign up, log in and send prank emails to their friends. Comes with Yahoo style navigation, refer a friend system, log in lg out system and very easy ways to add your own email prank categories! This script is 100% free, and is just over 130kb download in a zip file. Email methods were created by WebwizGuide.com, and the rest was compiled by Gamezoner.com.
