Customizable web-accessible eMediaAdmin software allows easy and quick posting of stories, articles, images for your online magazine, newsletter, or newspaper. eMediaAdmin creates attractive webpages without handcoding. You can publish your articles and images on to the Web without any knowledge of HTML or HTTP protocols. Software can be learned in just minutes. The software automatically: creates subfolders/directories that are easy to understand and follow, creates a HTML page for each new story using pre-made templates of your choosing and design, uploads images in the correct folders, updates the archive pages, updates the front page or section pages, and supports banner advertising.
