eNews is advanced management tools for on-line news articles and announcements publishing. This scripts support for unlimited number of News themes, for each, you can define multiple moderator. Each moderator can add a news or validate, edit, remove public submit for his news theme. eNews allows 1 or more administrator to administrate all news themes, create, modify and delete accounts for different moderators and news themes. News can be displayed by CGI or this scripts can generate HTML pages, of course the output is 100% customizeable (using template).
