<b>Email</b>	{value_email}

Simplify the process of booking equipment by integrating a self-service equipment booking system on your website. With the equipment rental software you can manage equipment inventory and clients with ease. Eliminate the risk of double bookings, improve conversion and customer experience. The equipment rental software serves multiple markets and can be used for booking construction equipment, party and other event equipment, sports equipment, audio/video rentals, etc. Use an intuitive back-end system to add all your equipment inventory and organize tools in categories and packages. Enable the ecommerce capabilities of the software by turning on the booking module and the online payments. You can integrate the equipment rental software into your website by copying and pasting a simple code. Then, you are all set with a powerful and intuitive ecommerce platform for renting tools online.
