Mobile Number	{value_mobile_number}
Email	{value_email}

Eteria IRC Client (EIRC) is an RFC 1459 compliant client program written entirely in Java using only version 1.1.x Java API, for compliance with current mainstream web browsers, without the need to download the Swing classes. It was written because it was needed a **free** Java IRC client at Eteria that was at the same time flexible and easy to extend, and that had a simple -yet complete- GUI.
