

# Event Count Down Widget V1

<b>Address</b>	{value_address}
<b>Contact Person</b>	{value_contact_person}
<b>Mobile Number</b>	{value_mobile_number}
<b>Email</b>	{value_email}

A simple but useful event countdown ticker. Great for pages under construction with a known launch date. All code resides on the timeline and is well commented. Additional documentation describes how to modify the widget's variables to your liking. Widget supports linking to a user specified URL when countdown completes. Furthermore, once the event day has passed ( a full 24 hour cycle) the ticker begins anew, counting down to the same month and date of the event but for the following year.
