Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Site referral software application that is easy for your site visitors to use. Now completely free of charge, no catches, adware or spam. * You control the content of the email, and your visitors are secure in knowing that their data is NOT being collected against their wishes. Simple, and all you need! * As a bonus, with our Tell-a-Friend you can deny email to specific domain extensions & add cautionary notes to your email text. (Reduces risks of user referrals to specified areas, such as those with EU Spam laws regarding user referrals.) * Customize email contents from a browser-based menu. Includes a pre-filled database of European domain extensions, to get you started. * Unencrypted ASP source code & guides included. * Visit for online demo or to download it now.
