Why use huge, bulky, hard to use accounting systems or paid online services, when EzInvoice is so much easier, faster and is less time, energy intensive and cost than those others? Use the easy interface to setup each client, estimate and invoice to your needs. If you don't need all the features of a full blown accounting program... Things like inventory, employees, banking, tracking and the options are mind blowing for some of them! What if... All you really need is a simple, painless way to create clients, estimates and invoice them for goods or services... Allow a simple way to let them know about the invoice and pay it using PayPal... Provide an easy, online interface for both you and your clients... Not spend 20 minutes navigating through an endless array of stuff just to send an invoice by email to a client??? Then EzInvoice is for you!
