

# EZREFPG - Easy Referral Page Generator

<b>Address</b>	{value_address}
<b>Contact Person</b>	{value_contact_person}
<b>Mobile Number</b>	{value_mobile_number}
<b>Email</b>	{value_email}

This script allows your guests to build their own site referral pages at your site. all they have to do is install simple HTML (generated by EZRefpg) in the page they want to recommend and a new link will appear in that page. when a visitor clicks that link (at your guest's site), he fills in a form and sends it to his friend/s, recommending your guest's page.
