

Facebook FBML 3-Step Process Fan Page Script

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Using the 3-Step Fan Page will help your Fan Page become viral by requesting that visitors: 1. Like the Fan Page. 2. Invite their friends. 3. Share, by posting to their Facebook wall. Notice: Unlike other similar codes this 3-Step process follows Facebook's TOS. There is no 'forced' wording or gimmicks making visitors invite friends or share. They can simply click next or skip to continue to the next step. While your Fan Page will grow slower using this TOS friendly method it will assure that your hard work is not wasted by your page being deleted by using this code. All images, buttons and text can be customized for your page. Demo: http://www.facebook.com/MPORGsoft?v=app_6009294086
