Fancy Typewriter - jQuery plugin

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Just add the plugin to any tag, which contains text. Check out the preview, which says more than words. Options: targetText – A string which contains the target text steps – The number of steps for each letter timeBetweenSteps – The time in ms for each step autoPlay – Start the effect automatically(true or false) underScore – Set a underscore at the end of the text(true or false) mouseOver – Enable/disable the mouseenter event, so when you move your mouse over the text, it starts from beginning(true or false) And more!
