This application helps you to quickly develop a long or short list of FAQs. It features a very easy, yet powerful online administration, with no limitations to the number of FAQs or FAQ categories. It also includes dynamic navigation for the public (next, top, previous frequently asked question). And the best of all ? It's free ! There are no strings attached, you won't be contacted by the developers, and there is no adware on the app. You can even remove our logo. :) Enjoy, and think of Expinion.net if you ever need a bigger application.
