Unlike default Magento autocomplete and other custom search extensions, Fast Search and Search Autocomplete Magento Extension does not put any extra load on your server. Fast Search and Search Autocomplete Magento Extension delivers relevant search results to your customers instantly as they type. Autocomplete widget is highly customizable and naturally fits any storefront design. Fast Search and Search Autocomplete Magento Extension is multi-store aware—the instant search widget can be customized individually for each storefront or language you have. From the very first typed character, the magento extension ships smart search suggestions and product previews. As the search term grows, the search results change in real time to become more relevant.
