Faster pagination in Rails

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

RoR's default pagination methods have a number of bottlenecks. In this guide you will learn how to use paginating_find to create fast, reusable and good looking pagination code for your projects. This method also works for pagination of find_by_sql queries and even supports find_by_sql with eager loading!
