With image uploading, body background, text and link colors, email links, and more, IEXP FastPage is the perfect tool for website owners to maintain their web pages. ISPs and developers will appreciate FastPage's design allowing for a shared copy of FastPage to service any of the web pages on your server. Domains and IP addresses can be allowed or disallowed in the configuration files. FastPage was designed to update MULTIPLE fields in your webpage at once, or selectively update only the ones you want to. Click and upload a new title graphic, background image, downloadable file and more.
