

FedhoSplit - split large files into smaller files

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

FedhoSplit split large files into smaller files. Split by file size or by file number. Graphical User Interface. Split a large file into smaller files so that they can be easily copied to floppy disks or transferred via e-mail. Of course FedhoSplit can join these split parts back together again, so that the original file is restored.
