File Manager .Net

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

The File Manager .Net Kit is a download script that will email a reference code for a user to download a particular file. The application creates a self-expiring reference key that is only valid for the particular email recipient specified by the admin. All user information is logged and saved for secure reviewing.
