Use Amazon.com's XML-API "Amazon Web Services 1.0" to create small product-teasers as well as a complete online-store & start earn provisions on every sold product. It has never been easier to retrieve detailed product-information like Author, Price, Manufacturer, Salesrank, Reviews and much more. The functions include an XML-parser; search-functions for author, director, artist etc.; functions to create pages with detailed product information, search forms, etc. Easy to set up and ready for use in minutes.
