Want a sure fire way to get likes and also grow your marketing list? Everyone loves a deal. With the First Social Deals app you can quickly add a deals tab to your fanpage. The app has built in like gating. It uses 1 click deal signup and gets the users email address and name directly from Facebook. The deals app is integrated with Aweber or you can download your leads as a CSV file to enter into any auto responder or email program. Once the user clicks to get your deal you can display a thank you page or redirect them to any website you choose.
