

Flash FLV Player

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

This Flash FLV Player can be used standalone, without the need for Flash MX 2004. The player allows you to show your videos more controlled and to a broader audience as with Quicktime, Windows Media or Real Media. Updated features are the showing of a placeholder jpg instead of preloading the video, so bandwidth can be saved. Also, the width and height of the video can be set in html.
