CF_FlashMultiUpload is a quick solution to replace multiple ordinary input type="File" This tag allows clients to upload multiple file at a single submit. This custom tag also adds below functionalities: 1. Filter file that can be uploaded. The filtering is done by file extension. 2. Limit maximum size of each and total file that can be uploaded 3. Limit maximum number of files that can be uploaded 4. Progress bar showing the progress of uploading process. Can do above functions? No. Are those functions requested by you and your clients? Yes, they are! Note: The original source code for FlashMultiUpload.swf is not distributed and it's not intended for sale. Contact us if you want to customize this custom tag further.
