

Flash Percentage Preloaders

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

This in depth tutorial from the award winning ActionScript.org will teach you in a step by step manner how to implement a percentage preloader which displays such information as bytes and percentage loaded so far, and remaining. The code is all explained in detail and very little knowledge is assumed.
