A flexible and substantial drag and drop down menu creation tool to Flash Developers. Using SmartClip technology create complex dynamic drop down menus in minutes that return one or multiple field values to your movie. You can choose to 'embed' your Headings and Links, use 'Text Files' or query a 'Database' using our built in PHP intelligence. Use sliders and color squares to change colors, transparency, drop shadows, text size, menu width and more. You can even change the x,y co-ordinates of the 'Items Group' to show up anywhere on the page.
