Flex Paypal W/Options

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Here we have a Custom Adobe Flex Paypal Script. This script will allow You to Sell Items Via Paypal in Your Adobe Flex Projects/Application. We have also included a way for the product to have Options,such as Sizes,and More. When You Click on The Item Picture, You will get a Popup Image of that Item, In this example "The Quality" of the image is low,so You probably wont get a very clear Image of the Popup. We have commented this the best we could,and Included a basic Help File. Please Contact Us if You need further assistance.
