

# Flexible PHP Pagination

<b>Address</b>	{value_address}
<b>Contact Person</b>	{value_contact_person}
<b>Mobile Number</b>	{value_mobile_number}
<b>Email</b>	{value_email}

Flexible PHP Pagination is a Generic Pagination Class that allows you to paginate your MySQL or otherwise results. On top of that it's easy to use, has full customization and can even be translated if you really want. Unlike other CSS and HTML predefined Pagination Classes, our Pagination class not only allows you to fully integrate this pagination with your design, but also allows you to use this with Mod Rewrite. Which means you can change the link structure however you like. Giving you FULL SEO Customization.
