

# FME One Step Checkout

<b>Address</b>	{value_address}
<b>Contact Person</b>	{value_contact_person}
<b>Mobile Number</b>	{value_mobile_number}
<b>Email</b>	{value_email}

If you don't want to let go your customers just because of checkout process complexities then FME's "One Step Checkout" is here to rescue you. It allows your customers to checkout effortlessly and lets you spend less time fixing customers' problems. Losing a customer just because it is too cumbersome to fill out multiple forms for checkout is too critical for a business. With FME's One Step Checkout, customers will have to fill-out just one form which will gather any necessary information and saves their time. Apart from just filling in billing and shipping information for checkout, this extension uses powerful Ajax to calculate and update this information in cart instantaneously if any change is made e.g. Address change. Also customers can now subscribe to the newsletter from the cart page. We recently added a comments field and 'How Did You Hear About Us' drop down.
