

Free Online Graphing Tool

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Graphs are dynamically generated on the fly, based on the parameters you specify. The URL takes the user to a web interface (HTML form). Simply fill out your values and submit the form, a graph will appear. Additionally a URL will be displayed, which can be copied into remote web pages and have techie-blogs generate the graph on your site.
