Free Perl Guestbook (FPG) has been designed from the ground up to be a reliable and easy-to-use guestbook. With FPG 2.01, installing, using and managing a guestbook couldn't be easier. The enhanced adaptability of FPG lets you easily create a style that fit your site. Give spammer no chance - FPG 2.01 includes an anti-spam function to protect your guestbook from spam-robots. And to ensure that your version of FPG is always the very latest, the update service in the Guestbook Control Panel will automatically notify you of updates.
