Freelancers Script Pro(New Update) is an Extensive and Powerful script written in PHP to launch your own Freelancers website. Create your own global talent search marketplace with this script. Service seekers can post their requirements through this script and the service providers can place their bids for doing the job. Highly configurable features and fully customizable colors, styles, fonts and graphics make this script very very special. How it works? Freelancers Script Pro works as a reverse auction platform and is very easy to use. Process is as follows Service seekers / webmasters post their requirements / projects Service providers / programmers/ designers place their bids Both sort out any issues through project discussion board Then service seeker chooses the service provider that they feel is best suited for their job. Service providers complete the job and service seekers pay them Then they place review for each other
