This is your chance to run your own version of the popular Friends Reunited site. Friends Reunited has over 8 million members from around the UK. This site can be set up to allow you to contact your old school, college, university, work or social (members of clubs e.g. Scouts, Cubs etc..) friends. The user simply joins the site, selecting their leaving year on the registration page and enters a description of what has been happening to them over the period since leaving school. After that they are added to the same section as everybody else from that year. The site can contain as many different years as necessary.
