

# FTP Upload Applet

<b>Address</b>	{value_address}
<b>Contact Person</b>	{value_contact_person}
<b>Mobile Number</b>	{value_mobile_number}
<b>Email</b>	{value_email}

Add FTP functionality to your web application in 60 seconds. Just extract the Thin FTP Upload Zip file, and move the contents to the webserver. Your web site or web application is now FTP enabled. Users need only to drop their files and folders on the browser to upload them.
