<b>Email</b>	{value_email}

Features: - slick design and animations - unlimited news items - unlimited content for each news - full screen news reader - popup news details - html formatted news description - easy news navigation - xml driven - support for most common text special characters - .PSD Photoshop design included Customizable from the .xml file: - the width and height of the list - the height of one button - the blur amount applied on the popup and the animation time and type for this - all the content inside the news reader This also includes a class for a patern background which you could use in your own projects with ease ( moderate to advanced actions-script skills are required for this ). Filesize is due to embedding a lot of the font's characters (normal & bold) and the graphical bg, it can get much smaller if you so desire. Enjoy this new release from OXYLUS Flash.
