Email	{value_email}

FusionCharts Suite helps you create stunning charts, gauges and maps in a jiffy for all your web and enterprise applications. Using it, you can build awesome dashboards, reports, analytics, monitors, surveys and more that blend aesthetic elegance and intelligent insight. Leveraging JavaScript (HTML5) & Flash, FusionCharts Suite XT works seamlessly across PCs, Macs, iPads, iPhones and a majority of other mobile devices. It works with both XML and JSON data, and can be integrated with any server-side technology (ASP, ASP.NET, PHP, JSP, ColdFusion, Ruby on Rails etc.) and database. FusionCharts Suite XT is the industry's leading enterprise-grade charting solution with over 21,000 customers and 450,000 users in 118 countries, including a majority of Fortune 500 companies and some of the web's most popular sites.
