

FuturePay Magento Extension

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

FuturePay is a new alternative payment method that lets shoppers buy from your online store without a credit card. Customers simply put their purchases on a FuturePay tab, making it easy to buy now and pay later. They only need to enter their email and password to complete their purchase in one step. FuturePay drives incremental revenues for your business by: - Attracting new customers who don't want to use credit cards online. - Increasing conversions by giving customers another payment option. - Funding shoppers' purchases with a FuturePay tab. - Streamlining the checkout experience to one-step.
