

# Gagz Clock Web Application

<b>Address</b>	{value_address}
<b>Contact Person</b>	{value_contact_person}
<b>Mobile Number</b>	{value_mobile_number}
<b>Email</b>	{value_email}

With this little app you can start a website on which you can let your visitors to see what is the time in different part of the world. I used to have this app on a site long time ago, from there is the logo if you are wondering. Product Features - Nice and clean design - Fast way to see what is the time in different parts of the world
