Getting started with Python

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Do you work in C, C++, or Java on large projects? This article shows how Python will give you results quicker and more reliably. Are you already scripting in a language other than Python? You'll want to see how Python's careful engineering offers an easy-to-use, interactive, clean, object-oriented, extensible, scalable language. Whatever programming you're doing now, Python can improve it.
