

GF ImageDeck

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

GF ImageDeck is the easiest, most efficient method available today to provide your guests with a constantly fresh, constantly new set of images. Presented in a traditional "Thumbnail Gallery" using one of two common styles, GF ImageDeck can automate the tedious chore of laying out the images, building the hyperlinks, and keeping the selection fresh. Using advanced random number techniques, GF ImageDeck "deals" out a random selection of images from a "deck" you specify. Best of all, your guests never see a "raw" image. They are always kept in standard HTML pages, giving you every opportunity to hold them and sell them on your site and its benefits.
