

Google Ad Wrap

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Section Targeting is a way of embedding special tags inside HTML to give Google's omnipresent spider a better idea of what's important on your page. This is a really simple plugin that wraps posts and comments inside these tags, in the hope that they'll lead to better search rankings.
