Mobile Number	{value_mobile_number}
Email	{value_email}

Power-Graphs graph software is a great option to make graphs online, creating graphs from asp php .NET perl or any other programming language with html output. This bar graph software can be used in any internet or intranet application that needs the use of comprehensive graphics in order to display information using bar graphs, pie graphs, and line graphs. Multiple graph layers can be set for comparison, colors are easily customizable
